Dear colleagues and friends,

On behalf of the Respiratory Effectiveness Group (REG), it is our great pleasure to invite you to the 6th REG Summit, which will take place in Barcelona, Spain on March 19-21, 2020 at the TRYP Barcelona Apolo Hotel.

In line with the REG's purpose to promote real-life research in respiratory diseases and the improvement of patient care through the influence of guidelines with real-world evidence, the Scientific Programme Committee has developed a rich scientific program, focusing on hot topics, cutting edge developments and controversial issues that can be meaningfully informed by real-life research.

By bringing together top experts in respiratory medicine, and structuring the meeting around debate and think-tank sessions, REG Summit 2020 will provide the ideal ground for intellectual exchange and production of breakthrough ideas, among those passionate about understanding and treating respiratory diseases.

Looking forward to welcoming you in Barcelona!

With warm regards,

Nikos Papadopoulos
